REASONS FOR ALLOWANCE

1. Claims 37 and 70-76 are allowed.
2. All pending claims are rejoined and examined. Generic claim 37 is allowable, and therefore claim 76, withdrawn for being drawn to a nonelected species, is rejoined. All non-elected species are rejoined.
3. The objection to the specification is withdrawn in view of applicant's sufficient and proper correction of inventorship.
4. The following is an examiner's statement of reasons for allowance.

The following rejections are withdrawn in view of applicant's arguments and amendments to the claims:

5. Claim 73 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the

time the application was filed, had possession of the claimed invention. This rejection is for lack of written description.

6. Claim 72 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The following rejections are withdrawn in view of applicant's sufficient and proper correction of inventorship.

7. Claims 37 and 70-75 are rejected under 35 U.S.C. 102(e) as being anticipated by Goldstein et al., US 6,207,403 B1.

8. Claims 37 and 70-75 are rejected under 35 U.S.C. 102(a) as being anticipated by Sakowicz et al., (10 April 1998) Science Vol. 280, pp. 292-295.

9. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
